# REMOTE CONTROL

SUBSCRIPTION/ ASSOCIATION / ACTIVATION AND USAGE

This user guide will explain the path that you need to follow to activate Remote Control for your car.

First of all, to use Remote Control, you need a MyDS account and register your car. If you haven't install the mobile app on your smartphone, you can easily do it by downloading the app from Google Play Store or App Store.

Open the MyDS app, visit the Services store section and select "Discover" to activate Remote Control. Tap on "START ACTIVATION" and follow the few steps to activate your new service.

You will be redirected on the Service Activation page, in which you can read what Remote Control is and what are the benefits that you will have tanks to this service. Scroll down and tap on the "GET" button to continue activating the service.
To activate Remote Control, it is important to read and accept the General Conditions and, after saving your preferences, you can start the activation process through the Mobile App, just tapping on "CONTINUE TO MYDS".

The 3 steps that you need to follow in this moment will take you only few minutes and at the end you can start to enjoy your Remote Control. At the beginning, confirm that you have already read and accepted the terms and condition, then start the activation.

MyDS account certification process

To be able to control your vehicle remotely from your smartphone, you must complete this ten-minutes path in three steps.

You can stop it at any time and resume later.
